My Small-Space Coffee Station

Plan a beautiful, practical coffee corner around the way you brew.

01 Measure the available area

Counter width (cm) _____

Counter depth (cm) _____

Clear height above brewer (cm) _____

Required appliance clearance (from manual) _____

02 Choose your brewing routine

- ☐ Capsule / espresso / drip / pour-over / French press
- ☐ Power outlet and cable route are suitable
- ☐ Safe distance from water, heat and cabinet doors

03 Set up three useful zones

- ☐ Daily counter: brewer + clear mug landing area
- ☐ Nearby cabinet: mugs, filters, coffee and utensils
- ☐ Reserve storage: refills and occasional equipment

04 Pick your visual direction

- ☐ Scandinavian / warm modern / dark moody / rustic
- ☐ Soft pastel / industrial / Mediterranean

Accessory budget (optional) _____

05 The final morning test

- ☐ I can refill and use the brewer without moving objects
- ☐ The countertop and machine are easy to clean
- ☐ A cup can be placed safely without blocking food prep
- ☐ My coffee station feels useful, not crowded

Design inspiration only. Always follow appliance instructions and installation requirements.
